## Specifications

### Dimensions

Length:	18ft 6in (5.72m)
Shipping Length:	18ft 9in (5.72m)
Lift:	2ft 0in (0.61m)
Width:	10ft 6in (3.2m)
Min. Height:	10ft 6in (3.2m)
Effective Catching Length:	11ft 2in (3.40m)
Inside Catchers:	2ft 2in (0.66m)
Weight:	8,800 lbs (4,000kg)

### Tires

Size:	38 x 20 -16.1, Optional 42 x 25 -20
-------	-------------------------------------

### Engine

Engine:	Cummins® 65 hp diesel
---------	-----------------------

### Tank Capacities

Fuel:	48 gallons (182L)
Hydraulic oil:	18 gallons (70L)

# 8000

blueberry harvester

8000

Oxbo continues the Korvan legacy of harvesters known for setting the standard for fresh market harvesting and **unbeatable rotary heads** for over 20 years. The Oxbo 8000 will assist you in delivering the highest possible fruit quality.

### Legendary Performance

The **free floating head design** continues to surpass other available styles as it moves with your plants to **eliminate raking and plant damage**. Our improved nose cone design accommodates larger, more mature plants. An adjustable picking stroke and food grade rod coating are just two of the many features offered by an 8000 harvester.

### Superior Fruit & Catching

- **Single drop harvester:** Boasting the lowest fruit drop, a single belt efficiently conveys fruit through the cleaning system to the back of the machine to put fruit into totes or lugs.

- **Solid stainless steel sides**
- **Ultra low loss catchers:** Field proven to retain more fruit than any other catcher style. Utilizes 4¾ inch spacing on high density catchers.
- **Food grade oil:** Food grade oil now standard feature

### Superior Quality

The Oxbo 8000 blueberry harvester features a reliable Cummins® 65hp diesel engine. LCD display and total control joystick add to operator control and comfort. Key harvester components, like catchers, buckets, and belts have been chosen to provide a long life in the field. Season after season the model 8000 has proven to consistently harvest the highest quality fruit while delivering:

- **Great visibility**
- **Low noise**
- **Low maintenance**

### Improved nose cones and cane lifters:

Designed to gently transition the plant into the picking tunnel to maximize fruit retention. New design to better accommodate large, mature plants.

### High picking tunnel:

The picking height range of 88-113 inches allows the 8000 to pick larger plants

### NEW! Picking Lights:

Optional light package improves visibility and increases machine productivity

### NEW! Harvester controls:

New LCD display and Total Control Joystick improve operator control and comfort

### Optional air conditioned cab:

Increases operator comfort

### Ultra Low Loss catchers:

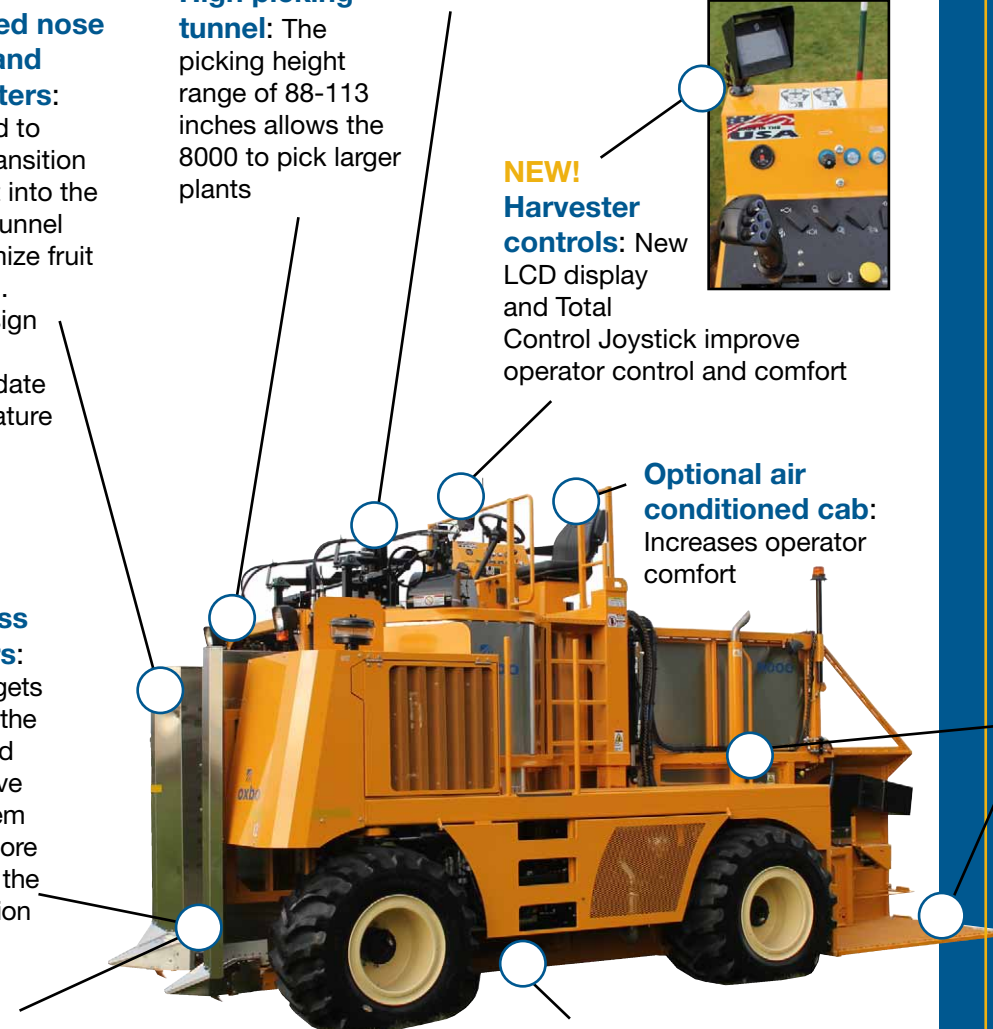

Catcher gets lower on the plant; field tests prove this system retains more fruit than the competition

### Side guard belts:

Designed to maintain the very highest blueberry quality

### Single drop:

Single drop delivery system for optimum fruit quality.

## Customized Picking

**Orbirotor® System:** The Korvan brand **pioneered the rotary picking style and has been the market leader in fresh market harvesting for over 20 years.**

The Orbirotor utilizes an orbital shaking action in a free-floating head delivering less plant damage than fixed head designs. The gentle shake provides the most selective pick on the market so you can take advantage of the early season and fresh market prices.

**Dynarotor® System** uses a more aggressive horizontal shaking action. **NEW!** Weight system for easy stroke adjustment.

**Sway System** brings traditional sway picking action that removes fruit by swaying the plants back and forth as a group.

## Options

- **NEW!** Picking light package
- **NEW!** Extended rear decking for increased storage options
- Traction Package: Includes posi-traction and Big Foot tires and rims (42 x 25 -20)
- Tote loader
- **IMPROVED** Automatic steering
- Top beater
- Side guard lower belts
- Air conditioned cab

**On-board storage:** Ample storage on both sides of the harvester
